Aw Grace what a joy to hear from you! I am so glad that I had some small part in your love for ASL. You were always a natural and so much fun to teach. Eagerness in a student is a thrill for anyone teaching. I will never forget you signing (John Mayer?) at our final ASL party. I love your family so much and I feel grateful that our lives crossed for that time. I was really wanting to come visit this summer but the boys' baseball schedules have made it impossible.

Anyway, if someone reaches out to me I will give you a ringing endorsement. Please know I think of you often and very fondly.

love,  
Suzanne
